6 MEDICARE FACTS TO REMEMBER

1. **25%**
The amount you pay for prescription costs above $445 and below $4,130. This is only initial coverage, then it gets complicated.

2. **20%**
The amount Medicare-approved rate for claims that you pay. For the non-Medicare-approved rate this may be up to 15% more.

3. **80%**
The percentage of Medicare-approved amount Medicare pays for medical services.

4. **A-F**
Federally regulated Medigap Plans. (Plans C and F no longer available for people new to Medicare 2020 and beyond.)

5. **34%**
Average out-of-pocket health care spending as a percentage of Social Security income for ages 65-74.

6. **40%**
Average out-of-pocket health care spending as a percentage of Social Security income for ages 75-84.
