

# MyPriority

## Chronic condition management benefits

**Did you know that six in ten adults in the United States have a chronic health condition?\***

Priority Health is committed to reversing this trend. MyPriority members\*\* have access to a variety of medications and services to help them live a happy life, keeping their chronic condition under control.

### Diabetes management

**Diabetes management services, supplies and treatments are covered in full, before deductible, when furnished by a participating durable medical equipment (DME) provider.**

Members pay \$0 for the following:

- Insulin pumps
- Blood glucose monitors
- Syringes and lancets
- Needles
- Glucose test strips

**Diabetes prescriptions and testing procedures are covered before deductible, with cost share.**

#### New for 2023 plans:

- Tresiba, one of the nation's most popular long-acting insulin medications, is now a Tier 2 drug in the MyPriority formulary.
- Lipid panels are now covered in full before deductible (after deductible for HSA plans)

### High Blood Pressure management

**Hypertension management supplies and prescriptions are covered before deductible, with cost share (based on plan metal level).**

- Blood pressure monitor
- Angiotensin Converting Enzyme (ACE) inhibitors
- Beta-blockers

### Heart Disease management

**Heart disease management testing and prescriptions are covered before deductible, with cost share (based on plan metal level).**

- Low-density Lipoprotein (LDL) testing

### Asthma management

**Asthma management supplies are covered in full, before deductible.**

Members pay \$0 for the following:

- Peak flow meters

**Prescriptions are covered before deductible, with cost share (based on plan metal level).**

- Inhaled corticosteroids
